

UASHMAMA®

F / W 2022 / 23

OUR PHILOSOPHY

We design and manufacture lifestyle products that balances our respect for nature and design functionality. UASHMAMA promotes intentional living through eco-sustainable products conceived, designed, and entirely made in Tuscany, Italy.

INNOVATION

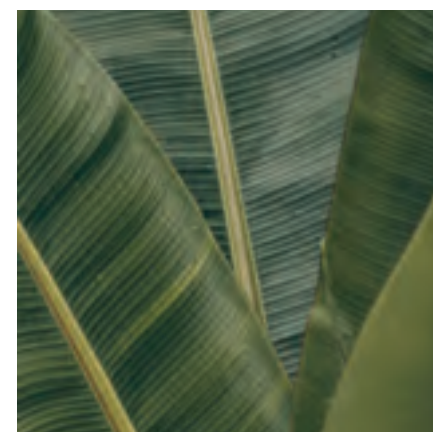

All of our products are made from our own washable paper material, exclusively made of natural fibers.

FUNCTIONALITY

We apply our Italian design principles to create impactful products that enhance our daily routine.

SUSTAINABILITY

From design concept to final product, every step of the manufacturing and production process is thoughtfully managed and considered. We strive to reduce our environmental impact throughout every stage.

MATERIAL

We begin by sourcing raw materials that come from trees cut in a sustainable and controlled manner. We then recondition the raw materials with our unique treatment process, adding natural vegetable waxes and reducing the chemical substances inside the raw material. Once the material has been processed and becomes “AGGO”, we add final touches such as specialized dyeing, finishes, and doubling paper in order to strengthen and style the paper.

Now our craftsmen assist the material into the

final product by cutting, sewing, and assembling the product its final form

QUALITY

Quality is so important to us. We take pride in creating our own paper material and carefully monitor the process from start to finish. This allows us to ensure strength, durability, and longevity of each and every product.

CERTIFICATIONS

We certify our raw material processes, implement water-saving methods, and do not use chrome. We use organic cotton, woven in Tuscany with certified organic fibers, for our bag lining.

SUSTAINABLE MEASURES & CONSIDERATIONS

We're proud to be Italian. We keep our manufacturing and production local, employing local craftsmen and artisans from the surrounding Tuscan area.

Wherever possible, we take careful considerations to reduce waste. The materials we use to reinforce our bags, sacks, and backpacks are scraps of AGGO paper and organic cotton so that any waste is used.

The straps we use, like the shoulder straps of backpacks, are made of recycled cotton - 85% of which is derived from used T-shirts.

The leather we use is top quality, tanned in the Tuscan area, utilizing old principles and methods of 'vegetable tanning' in the total absence of chrome, using only tannins from the chestnut tree.

COLORS

DESCRIPTION

Perfect for storing loaves, rolls, delicious artisan breads and patisserie this wonderful linen bread bag is made of organic linen and has practical washable paper base to be cleaned easily.
An eco linen bread bag can help to keep bread fresh for longer. Your bread needs to breathe and it naturally has a high moisture content. If it is kept in a sealed container it will soon get mouldy - a linen bread bag helps to stop this from happening. It's washable and re-usable. Turn the top of the bread bag down to make a pretty basket, perfect for serving bread and rolls at the table. Make a knot to close the bag and keep the bread fresh.
